

Manual shear cut slitting system Modul II

Material to be cut: Aluminium
Typical customers: Anocoil, Agfa, Dupont, ICI
OEM's: Kampf, PSA, Euromac, Hydro Aluminium, Midi, Wickeltechnik

Technical details:

inside frame width: 2580 mm
slitting speed: 1200 m/min
minimum slit width: 500 mm
knife holder type: PSGs-DF CSL WKS (driven knife head)

This photo shows a similar delivered system

Advantages:

- quickly changing the slitting widths
- low machine break-down-times
- minimized setup times and costs
- digital readout unit
