DIENES again honored as Germany's innovation leader

DIENES already secured the title of "Germany's Innovation Leader" in the field of "Hand Cutting Tools; Cutting; Separating" in 2019. DIENES successfully defended this title and won the prestigious award again in 2021.

The award was presented by the F.A.Z. Institute, which tested 33,000 German companies for their innovative strength. The study was based on the patents registered with the EPO Worldwide Patent Statistical Database, (PATSTAT) and the significance of these patents for the development of the industry. Further details on the methodology and data basis can be found at: <https://www.faz.net/asv/deutschlands-innovationsfuehrer/>

DIENES is known for its large number of patents that set new standards in the field of "slitting" worldwide: From pneumatic and electric motor driven knife holders, DIENES CSL technology for cutting force optimization, DIENES Easy Set for safe and easy knife positioning and DIENES Senso Control depth adjustment for perfect cutting results to the fully automatic simultaneous positioning system DIENES SIMU FLASH. As an "innovation company", DIENES will continue to develop pioneering technologies and products with a great deal of know-how.

About the family business:

DIENES is a market-leading supplier in the fields of knives, knife holders, slitting systems for industrial applications and can look back on a company history of over 100 years. The company employs approximately 500 people. DIENES owns various national and international patents and is active in a wide range of industries, such as packaging, labels, adhesive tape, battery foil, nonwoven, pulp, paper, sleeve paper, aluminum, carbon material and many more. DIENES knives and knife holders are used to cut, score or perforate a wide variety of materials. DIENES products are used, for example, in the roll-to-roll and roll-to-sheet processes.
